OSCAR'S HOLLOW

PRAIRIE-BORN ROCK AND ROLL

BIO

Forged in the prairies of Western Canada, Oscar's Hollow harnesses their restless energy and hyper focused ADHD spirit into soul-stirring, roots-driven rock and roll. Their brand of "The Band meets Nirvana" combines heartfelt storytelling, earthy grooves, and rich harmonies with overdriven guitar tones and raw, cathartic energy—songs with roots in the soil and enough bite to leave a mark.

A fixture in Saskatoon's music scene, they've opened for touring acts such as Elliot Brood, the Pink Mountaintops and Tim Hus, and played Waynestock, Ness Creek, and the Napatak Ramble., bringing tight musicianship and infectious chemistry to every stage.

Formed in 2016, the five-piece features vocalist Kris Mihilewicz, multi-instrumentalist Darryl Dozlaw, drummer Kurt Burnett, guitarist Byron Shaw, and bassist Malcolm Whyte.

Their new album, Strange Light, pairs soulful vocals with genre-bending instrumentation, exploring fractured relationships and the resilience and beauty found in the struggle. From the hook-based energy of standout singles like "Desiree" and "Hot Mess" to the simple charm of tracks like "All Fall Down", this album showcases a band locked into their sound.

Oscar's Hollow is a band best experienced in person. Keep an eye out for upcoming tour and festival dates in 2027.
